On the following pages are questions about activities babies may do. Your baby may have already done some of the activities described here, and there may be some your baby has not begun doing yet. For each item, please fill in the circle that indicates whether your baby is doing the activity regularly, sometimes, or not yet.

## Important Points to Remember:

## Notes:

- Try each activity with your baby before marking a response.
- Make completing this questionnaire a game that is fun for you and your child.
$\checkmark$ Make sure your child is rested and fed.
$\checkmark$ Please return this questionnaire by $\qquad$ -.

At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, mark "yes" for the item.

## COMMUNICATION

1. Without your showing him, does your child point to the correct picture when you say, "Show me the kitty," or ask, "Where is the dog?" (She needs to identify only one picture correctly.)
2. Does your child imitate a two-word sentence? For example, when you say a two-word phrase, such as "Mama eat," "Daddy play," "Go home," or "What's this?" does your child say both words back to you? (Mark "yes" even if her words are difficult to understand.)
3. Without your giving him clues by pointing or using gestures, can your child carry out at least three of these kinds of directions?a. "Put the toy on the table."d. "Find your coat."b. "Close the door."e. "Take my hand."c. "Bring me a towel."f. "Get your book."
4. If you point to a picture of a ball (kitty, cup, hat, etc.) and ask your child "What is this?" does your child correctly name at least one picture?
5. Does your child say two or three words that represent different ideas together, such as "See dog," "Mommy come home," or "Kitty gone"? (Don't count word combinations that express one idea, such as "byebye," "all gone," "all right," and "What's that?") Please give an example of your child's word combinations:

3. Does your child pretend objects are something else? For example, does your child hold a cup to her ear, pretending it is a telephone? Does she put a box on her head, pretending it is a hat? Does she use a block or small toy to stir food?
4. Does your child put things away where they belong? For example, does he know his toys belong on the toy shelf, his blanket goes on his bed, and dishes go in the kitchen?
5. If your child wants something she cannot reach, does she find a chair or box to stand on to reach it (for example, to get a toy on a counter or to "help" you in the kitchen)?
